

SUMMARY

New site of *Listera ovata* (L.) R. Br. on the shore of Lake Miedwie (NW Poland)

Listera ovata is legally protected in Poland. A new site of this orchid was discovered on north-western shore of Lake Miedwie (53°19'09" N, 14°53'21" E) in July 2005. On a heavily shaded area of 1600 m² in *Fraxino-Alnetum* alder carr 63 specimens of various developmental stages were found.
