

SUMMARY

Wójtowski M., Gierczyk B., Kujawa A. Three new localities of Scarlet Elfcup *Sarcoscypha austriaca* (O. Beck ex Sacc.) Boud in the Wielkopolska (W Poland) – new species for this region

Chrońmy Przyrodę Ojczyzną **64** (2): 105–109.

Scarlet Elfcup is a rare species in Poland, from 2004 under strict law protection. Three new localities were found in Wielkopolskie voivodeship on February and March 2007: in the “Śnieżycowy Jar” reserve near Starczanowo (52°36'36" N, 16°56'10" E), in Borówiec (52°16'39" N, 17°02'21" E), and in Nowa Cerekwica (51°55'27" N, 17°19'57" E) near Jarocin. This species has not been reported from this region so far.
