

SUMMARY

Cypripedium calceolus L. **in the Segiet nature reserve in Bytom (S Poland)**

Cypripedium calceolus, one of the orchids threatened with extinction in Poland, is reported from beech forest in the Segiet nature reserve in Bytom (50°24' N, 18°51' E). On 26 June 2006 three shoots were found there. Two of them were fruiting. It is the first report on this species from this area after 25 years.
