

SUMMARY

Czarna A. Procurent restharrow *Ononis repens* L. in the Puszcza Notecka Forest (the Wielkopolska region, NW Poland).

Chrońmy Przyrodę Ojczyzną **63** (4): 38–42, 2007.

A new locality *Ononis repens* (BC6500 square of the ATPOL grid) was found 7.5 km north of the Wronki (52°42'40" N, 16°22'45" E) in 2006. Belts of 20 m length and 1.5 m width composed of about 10 thousand stems extend on both sides of a road in pine wood.
